H. PUBLIC HEARINGS

1. Devolution of Secondary Road System

Mr. Steven Hicks, General Services Manager, stated the County participated with VDOT in a study to take over the secondary road system. He stated the matter was discussed at the Board's retreat in January as well as in the October work session. He also stated the agreement with VDOT would allow the County to take over the construction and maintenance programs for secondary roads. He further stated staff is asking for a deferral of the resolution which allows the County Administrator to execute the agreement to enter into negotiations.

Mr. McGlennon stated the public could speak to this matter, but the Board would not act at this time. He stated the adoption would mean that the County would enter into negotiations to develop a plan and cost for taking over maintenance and construction projects for the secondary road system.

Mr. Hicks stated that the resolution authorized the County Administrator to enter into the agreement and authorized the County to enter into negotiations. He stated the actual costs would come before the Board before a decision would be made on actually taking over the construction and maintenance projects.

Mr. McGlennon opened the public hearing.

1. Mr. Michael Richardson, 2701 Jolly Pond Road, stated the expense to start the program was too high; asked how can they do better than VDOT, through workforce?; stated they are not in the business of subcontracting; and that he did not support this item.

2. Mr. Donny Martin, 7196 Canal Street, stated the cost was too much to take on the program when the State is currently administering it, and he commented on poor workmanship with contract work at his home.

3. Mr. Ed Oyer, 139 Indian Circle, commented on the public hearing advertisement for the devolution of the secondary roads; warned of lack of support from the State in the long term; and stated \$5 million is too high for a start-up cost.

As no one else wished to speak to this matter, Mr. McGlennon closed the public hearing.

Mr. McGlennon asked Mr. Hicks about prior public discussion.

Mr. Hicks stated that there have been several instances where this information has been made available to the public.

Mr. McGlennon stated this was not a new issue and asked if \$5million was the price of taking over all operations.

Mr. Hicks stated this was correct and that \$5 million was not the start-up cost. He stated the figure was based on a model developed by VDOT to start from scratch with a large public works project. He indicated that the General Services Department has a large portion of the equipment and facilities suggested in the model. He stated there were also discussions about what VDOT would provide to move this devolution process through and that the recommendation through the work session was to take incremental steps. He stated the agreement would allow the County to work with those contractors that work for VDOT, and the County would not take over systems until at least 2010, which would allow the County time to see if the arrangement was working.

Mr. McGlennon stated that what the State provides can also be taken away. He noted that cities in Virginia are given the responsibility to take care of the secondary roads as well as the County of Henrico.

Mr. Hicks stated this was correct and noted that Henrico County gets a large contribution toward its Secondary Road Program from the State. He noted that this initiative was only for roads numbered 600 and above and not all roads in the County. He stated that State funds have been cut for construction, but this initiative would allow the County to prioritize how to use the funds received.

Mr. McGlennon stated that the resolution authorizes negotiations with VDOT. He stated that the \$5 million would only be required if the County took on all programs of construction, maintenance, and operations; used none of its own resources; and received no reimbursement from the State.

Mr. Hicks stated this was correct.

Mr. McGlennon deferred this item for action at a later date.

2. Ordinance to Amend James City County Code Chapter 18A - Stormwater Management

Ms, Ann Davis, Treasurer, stated it was the intention of staff to implement consistency and equity between real estate taxes and stormwater fees. She indicated that due to an oversight, the current County Code provides for interest on stormwater management fees rather than interest and penalty as it does with real estate taxes. She stated the intention of the ordinance amendment was to treat delinquencies of both fees equally so the fees would all be administered using the same business rules. She recommended adoption of the ordinance amendment.

Mr. McGlennon opened the public hearing.

As no one wished to speak to this matter, Mr. McGlennon closed the public hearing.

Mr. Harrison made a motion to adopt the ordinance.

On a roll call vote, the vote was: AYE: Harrison, Bradshaw, Icenhour, McGlennon. (4). NAY: (0).

I. BOARD CONSIDERATION

1. Approving the County's 2008 Legislative Program

Mr. Rogers stated the resolution adopted the County's Legislative Program with the amendments discussed at the work session with the members of the General Assembly. He recommended approval of the resolution.

On a roll call vote, the vote was: AYE: Harrison, Bradshaw, Icenhour, McGlennon. (4). NAY: (0).

J. PUBLIC COMMENT

1. Mr. Michael Richardson, 2701 Jolly Pond Road, commented on the devolution of secondary roads and stated that \$5 million was not enough to start the program. He commented on the dangers of students walking to Warhill High School in poor lighting with no sidewalk on one side of Centerville Road.

2. Mr. Donnie Martin, 7196 Canal Street, commented on the costs of the devolution of the secondary roads and other projects.

3. Mr. Ed Oyer, 139 Indian Circle, asked whether or not the housing units at Pocahontas Square were sold out.

K. REPORTS OF THE COUNTY ADMINISTRATOR

Mr. Wanner stated the Board had completed its business and it should adjourn to December 11, 2007, at 7 p.m. He noted that this would be the only meeting in December. He said that a meeting of the James City Service Authority Board of Directors needed to be held. He indicated to Mr. Richardson that he would provide him a copy of the VDOT study that gave the cost analysis of the devolution program.

L. BOARD REQUESTS AND DIRECTIVES

Mr. Bradshaw stated there was an initiating resolution for the zoning ordinance to offer regulation for payday lenders in the County by defining and creating a zoning category. He clarified that the resolution did not establish this zoning category, but rather starts the process of changing the ordinance. Mr. Bradshaw stated this required action because payday lenders are a different kind of facility from banks and other financial institutions in land use and other characteristics. He stated he would like to start the process so the next Board can define this zoning for payday lender facilities.

Mr. McGlennon stated this resolution starts the process for evaluating this type of business in accordance with the zoning ordinance and would propose amendments.

Mr. Bradshaw made a motion to adopt the resolution.

On a roll call vote, the vote was: AYE: Harrison, Bradshaw, Icenhour, McGlennon. (4). NAY: (0).
