

BROOKDALE
CHAMBREL
OF WILLIAMSBURG

August 1, 2003

Mr. O. Marvin Sowers
101-E Mounts Bay Road,
PO Box 8784
Williamsburg, VA 23187-8784

Dear Mr. Sowers,

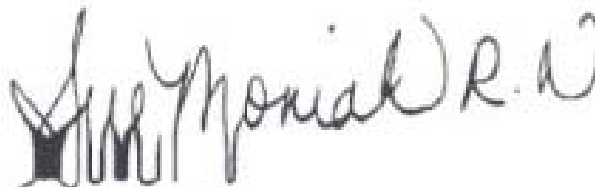

Thank you for the letter regarding the revision of the Comprehensive Plan 2003 concerning the Treyburn Dr. Extension. I want to thank you and the Board of Supervisors for your diligent efforts to protect Chambrel at Williamsburg interests and tranquility that our residents enjoy here every day.

I have met with the Treyburn Extension Committee, which consists of several Chambrel residents, a Chambrel cabinet member and myself. We would like to recommend that the following items be added or expanded on in the verbiage of the Comprehensive Plan.

- In addition to "landscaping buffering", we would like it to note that this needs to be an aesthetically pleasing sound/sight barrier such as but not limited to earth embankment with landscaping.
- Consideration of an impulse light on Treyburn Dr. for safe entrance and exit to and from the Chambrel community.
- Location of the road should be the maximum distance possible from the Chambrel Community, this would be Alternate B on the City of Williamsburg plan.
- "Management of the construction activity" to include limiting construction vehicles during construction phase and at completion of the High Street Complex that delivery trucks are diverted from the Monticello and Treyburn entrance.
- It should be noted all costs of the listed conditions will be at the expense of the City of Williamsburg.

Again, I would like to thank you for protecting the interests of Chambrel at Williamsburg and the residents who reside here. We will be present during the public hearing on August 12, 2003.

Sincerely,

Sue Moniak R.N.
Executive Director
