

MEMORANDUM

DATE: February 24, 2009
TO: The Board of Supervisors
FROM: Richard B. Hanson, Housing and Community Development Director
SUBJECT: Grant Appropriation Increase – Indoor Plumbing Rehabilitation Program – \$60,000

The Virginia Department of Housing and Community Development (VDHCD) provides Federal and State funds to the Office of Housing and Community Development (OHCD) to administer the Indoor Plumbing Rehabilitation (IPR) program in James City County. These funds are used to install water and sewage disposal facilities for homes which lack indoor plumbing or have failed systems and to provide for necessary rehabilitation to these eligible homes or replacement of homes unsuitable for rehabilitation. Currently, funds are committed by VDHCD on a first-come, first-served basis to local administrators for eligible individual projects.

Based on the status of applications by James City County homeowners, OHCD anticipates that it may obtain VDHCD commitment of approximately \$160,000 to fund IPR activities during Fiscal Year 2009.

Staff recommends adoption of the attached resolution to increase the appropriation of IPR funds by \$60,000 to a total of \$160,000 for Fiscal Year 2009.

Richard B. Hanson
